

EUROPEAN COMMISSION

HORIZON 2020 PROGRAMME - TOPIC H2020-LC-BAT-2019
Strongly improved, highly performant and safe all solid-state batteries for
electric vehicles

GRANT AGREEMENT No. 875189

SAFELiMOVE – Deliverable Report

D10.3 – Data management plan

Deliverable No.	D10.3	
Related WP	WP10	
Deliverable Title	Data management plan	
Deliverable Date	04 June 2020	
Deliverable Type	REPORT	
Dissemination level	Confidential – member only (CO)	
Written By	Maaïke van der Kamp (UNR)	2020-06-04
Checked by	Stephane Levasseur (UMC)	2020-06-12
Reviewed by (if applicable)	Remith Pongilat, Mohammed Nazar (ABEE)	2020-06-17
Approved by	Leire Olaeta, María Martínez (CICe)	2020-06-25
Status	Final	2020-06-19

Neither the SAFELiMOVE Consortium nor any of its members, their officers, employees or agents shall be liable or responsible, in negligence or otherwise, for any loss, damage or expense whatever sustained by any person as a result of the use, in any manner or form, of any knowledge, information or data contained in this document, or due to any inaccuracy, omission or error therein contained.

All Intellectual Property Rights, know-how and information provided by and/or arising from this document, such as designs, documentation, as well as preparatory material in that regard, is and shall remain the exclusive property of the SAFELiMOVE Consortium and any of its members or its licensors. Nothing contained in this document shall give, or shall be construed as giving, any right, title, ownership, interest, license or any other right in or to any IP, know-how and information.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 875189. The information and views set out in this publication does not necessarily reflect the official opinion of the European Commission. Neither the European Union institutions and bodies nor any person acting on their behalf, may be held responsible for the use which may be made of the information contained therein.

Publishable summary

SAFELiMOVE is participating in the Horizon 2020 Open Research Data Pilot (ORDP). The ORDP aims to improve and maximise access to and re-use of research data generated by Horizon 2020 projects and takes into account the need to balance openness and protection of scientific information, commercialisation, Intellectual Property Rights, privacy concerns, security as well as data management and preservation questions.

Within the SAFELiMOVE project, a vast amount of data will be generated and collected across all work packages and activities. The purpose of the data collection within SAFELiMOVE is to define and validate the technology for safe and cost-effective high energy density batteries.

In order to validate the approach and methodology of the project, the SAFELiMOVE-outputs will be produced in an open innovation process and the intention is to have as much data as possible publicly available.

This plan outlines the data that will be collected and generated during the project, how it will be stored and managed, and the measures taken to ensure it will be discoverable, accessible, assessable, intelligible, usable and interoperable. It also describes the relevant data security and ethical aspects.

This plan is based on the template provided by the European Commission and will be updated and re-issued throughout the duration of the project, as more information on the details of the data and its management become available, to make sure that it remains current and relevant.
